Keewatinohk Inniniw Minoayawin Inc. (KIM) Clinical Care Transformation Project

Improving access to health Services in Manitoba First Nations through Education and Job Creation as we work together towards a First Nations health system to meet the needs of First Nation communities in Manitoba.

Are you looking for an exciting career as part of your Community's health care team?

Are you interested in training to work in your community as a nurse, a health care aide, an occupational therapist, a pharmacy assistant, a rehab therapist, and more?

If 'yes', we invite you to help us measure interest levels from Manitoba's First Nations Peoples to enroll in training programs.

A Student Registry will be created that includes Community members who have expressed their interest. Registered members living on reserve might be contacted by educational organizations if training is being offered in an area of interest.

This important initiative, provided by Keewatinohk Inniniw Minoayawin Inc., in partnership with Indigenous Services Canada and Red River College, is designed to improve access to medical services to Manitoba First Nations Communities, and build capacity through education and job creation.
